

HSIE

Rainforests

- Research height of trees in rainforests

Map Making

- Maps of Walhallow, map reading, Atlas work, allocating data, e.g.
 - rainfall
 - co-ordinates
 - title key, scale, direction
- Map drawing
- Concept map
- Flowcharts

CAPA

Drama

- Rainforests

Plays

- Why Platypus is Special
- Extinct Forever

Art

- Masks, props
- Trees—paint, cut out shapes, symmetry
- Butterflies—animals, birds, colours

Craft

- Diarama—show good web/chain

Music

- Enviro-Rap, Letter Bug

Incidental

Procedure—Procedural recount

- Cooking
 - cost
 - price to sell for profit
- Money
 - volume
 - kilograms/grams/litres
- Measuring
- Time

Science and Technology Living Things

- Mini worlds
- Worms
- Survey landcare group
- Food chain / web

English

- Explanation – "Why are our native plants and animals disappearing?"
- Report – Animals in Rainforest
- Plays and structure
- poetry

Environmental Education Rainforests

Maths

- Perimeter and area of environmental hut
- Time for tree watering
- Weight of worm food/compost
- Determine volume of worm juice produced
- Estimate and measure (cm & m) distance between Bush Tucker trees
- Estimate and measure leaves (cm)
- Estimate and measure the height of trees (shadow method)
- Count trees in rows and areas
- Sketch map of known area, including title, key and scale
- Data 0 growth of trees, compare different species
